

CLASSICO

> elegant elegant > stilvoll stylish > geradlinig linear
> organisiert organised > variable variable

Unsere Besteckeinsatzserie CLASSICO setzt Maßstäbe
in Design und Qualität.

Our CLASSICO cutlery insert series sets new standards
in terms of quality and design.

Das Design dieses geradlinigen Organisationstalents
ist ausgerichtet auf die heutigen, modernen Küchen.
Die Facheinteilungen mit ihrer durchgehenden
Linienführung passen sich harmonisch dem Design
der Führungssysteme an. Wie bei AGOFORM
standardmäßig üblich, gibt es für alle Korpusgrößen
von 300 bis 1.200 mm Breite optimierte Designs.

The design of this linear organisational talent
is geared to contemporary modern-day kitchens.
The compartments with their continuous lines
adapt harmoniously to the design of the guide
systems. As is standard with all AGOFORM
products, optimised designs are offered for all
carcase sizes in the width range 300 to 1,200 mm.

Klare Linie

Unsere Besteckeinsätze CLASSICO bestechen durch ihr modernes, geradliniges Design und ihre Lichtkante am Fachboden. Dank seiner geradlinig angeordneten Facheinteilungen ist dieser Einsatz die ideale Grundlage für eine klare Struktur in der Küchenschublade. Aufgrund des breiten hinteren Randes sind Zuschnitte für Korpusstiefen von 500 bis 550 mm möglich.

Vielfältig

Ob normale Zarge oder Innenschubkasten: Unser „Eyecatcher“ passt zu Design und Abmessungen der aktuellen Führungssysteme. Für alle Korpusbreiten von 300 bis 1200 mm bietet AGOFORM passgenaue Größen.

Clean lines

Our CLASSICO cutlery inserts stand out on account of their modern, linear design and the light contour edge to the bottom of each compartment. The linear arrangement of the compartments makes this insert the ideal basis for lending the kitchen drawer a clear structure. The broad rear edge allows the insert to be cut to size to accommodate any carcass depth within the range 500 to 550 mm.

Varied

Whether a conventional drawer box or an interior drawer, our eye-catcher matches the design and dimensions of all current drawer systems. AGOFORM offers precisely fitting sizes for all carcass widths within the range 300 to 1200 mm.

Perfektion durch **Funktionalität** und **Designvielfalt**

In modernen Küchen bleibt nichts dem Zufall überlassen. Umso deutlicher heben sich unsere Produkte als die wahren Küchenhelferlein hervor – denn sie sorgen einfach für mehr Ordnung, Sauberkeit und Komfort.

Perfection by **functionality** and **design diversity**

In modern kitchens nothing is left to chance. All the more because our products stand out as the real kitchen helpers. They simply provide more order, cleanliness and comfort.
