DOMUS Line®

SMALLY XS
COLLECTION

About us

DOMUS Line is an Italian company specialized in the designing and production of lighting devices for the furniture industry.

Six brands put together the widest offer of lighting systems and control devices of the furniture lighting sector.

Ongoing research, innovation, design, reliability and brand reputation are the distinctive values of our company.

DOMUS Line®	Luminaires for kitchens, living rooms and bedrooms
DOMUS Bath®	Architectural luminaires for bathrooms
DOMUS Classic®	Luminaires for classic furniture
DOMUS Contract	Commercial lighting
DOMUS Centodieci	Luminaires UL and CSA approved for USA and Canada
DOMUS Accessories	Sensors and LED converters

Quality, environment and safety

ISO 9001:2008

The international standard ISO 9001 outlines the way to achieve high performance by following processes that improve operational efficiency at all levels. ISO 9001 is the most popular standard in the world, because it ensures the quality of processes, providing organizations with a competitive advantage. DOMUS Line has been ISO9001 certified for many years and has entrusted an entity among the most prestigious in the world to carry out periodic checks.

ISO 14001:2004

The international standard ISO 14001 is a management system recognized around the world that provides a framework for managing environmental performance. This standard is designed to help companies maintain high business value and, at the same time, effectively manage environmental responsibility. The recent certification of DOMUS Line ensures the company's commitment to continuous improvement and respect for the environment.

Intertek

The ETL brand (Electrical Testing Laboratories) indicates that the product has been tested in accordance with the applicable product standards (ANSI, UL, CSA, ASTM, NFPA) so as to be sold in North America. DOMUS Line offers a wide range of products certified according to this standard, and then traded in compliance with the law in USA and Canada.

TECHNICAL DATA

Power supply	12Vdc
Wattage	3W
Wiring	2000mm
Connector	Micro12

Device with non-replaceable LED module
Energy efficiency class: A++, A+, A
EU Regulation No. 874/2012

SMALLY XS Plus
with PLUG & PLAY SYSTEM

The SMALLY XS Plus configuration is equipped with the innovative Plug&Play system. Thanks to this innovation the power cord can be easily unplugged from the spotlight.
This makes installation easier and at the same time allows for easy unplugging and removal of the fitting even when already fixed to the furniture.

SMALLY XS IP44

SMALLY XS has IP44 protection and is therefore protected against splashes of water. SMALLY XS can be installed even in humid environments, such as bathrooms in complete safety.

Pictures of the Times
ROBERT FRANK

No point effect technology

All the luminaires of the SMALLY XS collection have a homogeneous and diffused light projection and devoid of the speckled effect typical of traditional LED spotlights. The SMALLY XS collection also integrates a special optics, which appear neutral and uniform even when the appliance is off.

SMALLY XS is a LED diffused lighting appliance designed for flush mounting with a 57mm hole and an installation depth of only 12mm. SMALLY XS is installed in wooden panels with both through and blind hole. The fixing system, with two lateral steel springs, is quick and does not require any tools. Its essential design makes it a versatile spotlight, ideal for installation inside wall units, under wall cabinets or under shelves, and in all the environments of the house.

SMALLY XS SP is designed for surface installation without the need for planned and complex holes in the furniture. Assembly is achieved by simply mounting the spacer with the two supplied screws, to which the spotlight is then fixed by pressing lightly. The simplicity of this fitting system allows a quick and simple installation of the luminaire under shelves in the kitchen, living room or bathroom.

SMALLY XS OB has a particular inclined shape at 20° and is easily installed on the surface flush with the vertical wall, allowing the cable of the appliance to be easily concealed behind the cabinet. Its asymmetrical light projection makes SMALLY XS OB ideal for installation under wall units in the kitchen to illuminate the worktop.

The EVOSMALLY XS, MENFI XS, TIKAL XS, HANAN XS and KISH XS collections integrate the LED technology of SMALLY XS PLUS and are made with high quality stainless steel bases for surface installation.
Ideal for application under kitchen wall units, they light the worktop excellently.
All the models are installed flush against the wall with the power cable hidden behind the cabinet. An on-off switch can be integrated, for the centralized control of a set of fixtures.

MICRO12 - looking ahead

DOMUS Line has always been very careful about all of the accessories used in its wide range of lighting devices. The wiring, and especially the connection between the converter and the luminaire, is crucial for the correct function of a lighting fixture.
Balanced wiring and a perfect connection guarantee great performance and reduce the risk of faults and working anomalies.

MICRO12 - SAFER, SMARTER AND BETTER CONNECTED LIGHTING SYSTEMS

INNOVATIVE CONNECTORS WITH SNAP-IN RETENTION FOR SIMPLE AND FAST INSTALLATION

The entire SMALLY XS collection comes as standard with the new Micro12 connection system. A new family of efficient connectors that gives great versatility of connection. The new Micro12 solution is very efficient and will be the technology of the future.

Warranty

Each unit is fully guaranteed for a period of 24 months from the date of delivery. From the warranty are excluded all defects caused by force majeure (lightning, fire, etc..), as well as any damage caused by improper use of equipment. The products must be installed and/or used in accordance with the specifications and instructions given by DOMUS Line Srl. They must also be installed and/or used in compliance with the provisions governing the installation and/or use of electric material force in the country where the products are installed and/or used. To this end, the buyer expressly releases DOMUS Line Srl from any responsibility for improper use, failure to comply with safety standards, technical specifications and instructions for use. The products which do not meet the standards and/or specifications in force in the European Union, will only be provided to the buyer that in the order specifies that the destination country does not belong to the European Union and indicating to have exhausted all the controls on compatibility of safety standards in force in the country outside the EU for which they are intended. In the absence of other arrangements for testing of the equipment, the standards established by the CEI (Italian Electrotechnical Committee) are valid. The warranty is void without fail in the event of tampering with the equipment by persons or technicians not specifically authorized by DOMUS Line Srl. The warranty does not cover normal wear and tear or the consequences of improper installation, nor the failure and/or breaks caused by inexperience and/or neglect.
