

daisyone

Daisyone embodies perfection in compact geometrical design. Its inventive geometry enables two screens to be mounted at the same height on a single post, without the need for additional brackets. Daisyone is suitable for use on the entire range of Colebrook Bosson Saunders posts and when used in conjunction with the quad post it also offers a 180° stop function, preventing potential damage to privacy screens.

code	COM/001 (Single arm assembly)
colours	Silver:/S, Black:/B to order
description	Standard arm, quick release with 500mm, 19 11/16" Quad post
