

Quickfit TL5 ,Full Metal Jacket'

Quickfit TL5 'Full Metal Jacket' is a **high-performance** dowel with greater resistance to dowel pull-out, providing optimal strength and **effective performance in MDF, chipboard and solid wood**, without the use of wooden dowels.

Strong and reliable joint

High drilling tolerances

**Tool-free insertion technology for
Ø5mm dowel holes**

Designed for factory insertion

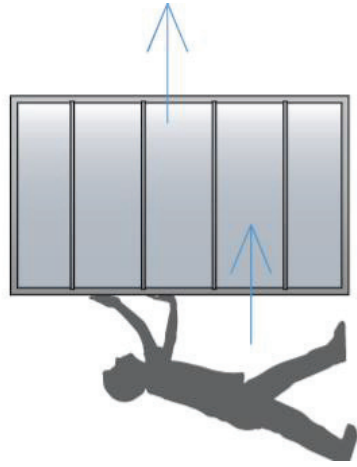

Strong and Reliable Joint

Expanding steel sleeve assures
a high resistance to torsion and pull-
out
a consistent performance even in case
of repeatable assembly of the furniture
