

Desk fixings

A number of standard fixings are available to enable posts, and therefore monitor arms, to be mounted to the desk surface. The choice of fixing option depends on the desk design and installation restrictions, but each method provides a firm base for any post and monitor arm combination. Bespoke desk fixing solutions are also available on request for more unusual mounting situations.

Through desk WSH/50S12/K WSH/100S12/K

- Simplest mounting option
- Fix directly to desk surface via a pre-drilled hole
- Securely anchored to the underside of the desk

Cast grommet UNI/CSG

- Larger pre-drilled hole covered by a decorative grommet
- Allows power and data cables to pass through the desk surface
- Less clutter on the work surface

Desk clamp UNI/LCLM

- For use where it is not possible or desirable to drill through the desk surface
- Range of standard clamps to fit desk thickness from 13mm, 1/2" to 67mm, 2 5/8"

Top mounting clamp UNI/TMCLM

- For use where there is limited access to the edges of the desk surface
- Can be completely disassembled to make installation easier

Quad clamp UNI/QPC

- Aligns the vertical grooves of Quad post at right angles to the desk
- Facilitates 180° stop function with the Daisone arm
